

# Music Request Planner

## BC Boogie Machine & Co.

BC BOOGIE MACHINE & CO. believes that the music played at your Reception is very important. It will enable your Guests to enjoy themselves and have a great time. Without quality music, your Reception will not be what you wanted or paid for.

This Request Planner will serve as an aid you in the correct selection of songs for you and your Guests. We have access to over 50,000 song titles in our music library covering the past 60 years.

We will make every effort to play the songs that you chose, however you should remember to take into account the musical tastes and preferences of your friends and family.

We ask that you chose songs that are DANCEABLE and not too “far out”. A good rule of thumb to remember is that time will only allow about 12 to 16 songs per hour.

We CAN NOT GUARANTEE that every title listed on this planner will be played; we may have to “adjust” the music based on your Guest’s requests and time allotted to other scheduled events.

You can be very general or precise with your selections, just remember to include something for everyone; remembering your young Guests and Seniors.
